Pittsburgh District

Notice to Navigation Interests

In reply refer to
Notice No. below

US Army Corps of Engineers, Pittsburgh District
1000 Liberty Avenue, Pittsburgh, PA 15222-4186
(412) 395-7157

Notice No. 03-21

Date: June 12, 2003

Locks and Dam 4, Monongahela River, Mile 41.5
Closure of the Large 56' x 720' Lock Chamber

1. Reference: Navigation Notice #03-20, Closure of the Large 56' x 720' Lock Chamber, dated 12 May 2003.
2. **TO ALL WHOM IT MAY CONCERN:** Notice is given that high water conditions have delayed the work at Lock 4 which was originally scheduled to start on 10 June 2003. The U.S. Army Corps of Engineers' Repair Fleet now anticipates starting the work at 12:00 noon on 16 June 2003 to dewater the 56' x 720' lock chamber in order to renovate the downstream gate sill; the job is expected to be complete by 11:00 PM on 10 July 2003. The small 56' x 360' lock chamber will be open to river traffic during this work period. Major delays to navigation interests are anticipated during this 24-day closure of the 56' x 720' lock chamber. The locking procedures annotated in Navigation Notice #03-20 will be instituted during this closure period.

FOR THE DISTRICT ENGINEER:

James J. Edinger, P.E.
Chief, Operations and
Readiness Division
